Preschool at Centerville Academy specializes in a curriculum content and learning activities that are geared for your child in his or her last year before Kindergarten.

An underlying theme that each teacher on our staff is committed to is discovering ways to constantly bring the excitement of arts education to your children. The key areas of music, art and creative dramatics and movement are integral parts of our program.

All children are involved in the acquisition of reading and math skills at various stages depending on developmental level and language and vocabulary proficiency.

We cover core aspects of your child's social, emotional, physical and intellectual development

Our teaching staff is proud of what we do. Watching your children's love of learning blossom and their delight in the world around them grow provides rich rewards for us.

Tell a friend.
They'll appreciate it!
